

Mr. Yard's UltraPro Premium with Instaheat

Mr. Yard's UltraPro Premium with InstaHeat consistently outperforms other ice melters; it works faster and at temperatures at which other products stop working. Here is a comparison of our premium ice melt to others on the market.

Ours:

- Safer on vegetation
- Safer on concrete
- Safer on metals
- Less impact on environment
- No protective clothing required
- Dyed for visual even application
- 2-4 oz. per sq. yard recommended application rate
- Safer for pets & children
- 100% active ingredients
- 500 sq. ft. coverage in as little as 1 cup of material
- Granulated for fine dispersal
- Unlimited shelf life
- Safe on floors & carpets
- Safe of leather & footwear
- Leaves no oily residue
- Offers residual melting resulting in fewer applications

Theirs:

- Draws moisture from roots
- Greater spilling damage
- Rusts metal quickly
- Protective clothing required
- Oily residue
- Irritation hazard
- 49% active (balance water)
- Not dyed
- No published reports
- Attracts moisture (cakes)
- Compromises surface & fiber integrity
- Damages leather & footwear
- Hazardous slippery & oily film
